THE LOSSES AT SPOKANE.

THE LOSSES AT SPOKANE.

REVISED ESTIMATES FIX THEM
AT \$8,000,000.

The Insurance Loss One-Third That
Amount—Sugar Works Burned
—Killed by Lightning.

SPOKANE, FALLS, W. T., Aug. 7.—As
large a district has been burned over here
as in the recent fire at Seattle, and, most
of the buildings being new and elaborately
constructed, they were of more value than
the buildings destroyed at Seattle. Practi-
cally nothing is left of the town except its
homes. They were placed upon a
remote eminence where the fire
could not get at them, and the dreadful
situation is thus mitigated to a consid-
erably extent. It is hard to give any
estimate of the losses as yet. The people
are much disheartened. Coming so soon
after the disasters at Seattle and Ellen-
burg, it is a dreadful blow to the pros-
perity of the new State of Washington.
It is believed that a large measure of blame
attaches to the city superintendent of
water works, who was away during the
fire, and who left matters in such shape
that connections from hydrants to the
water works were made with great diffi-
culty. At least four people lost their
lives.

It is now said that \$8,000,000 will not
cover the losses, but that \$2,500,000 is a
large figure at which to estimate the in-
surance. Supplies of provisions are com-
ing in slowly, and are being consumed
quickly as they come. The real property
destroyed must have been worth at least
\$1,500,000. This represents, however,
but a small fraction of the actual loss, for
the stocks carried in some of the business
houses of Spokane were immense.

During the progress of the conflagration
people were compelled to move the goods
they had saved many times, and in many
cases they had ultimately to be abandoned.
Vehicles of every description were in great
demand, as high as \$300 being offered for
the use of a single wagon.

Threatening walls are being leveled to
the ground as rapidly as possible with
gun powder to prevent accidents. The
burned district is already dotted with tents
in which enterprising merchants are doing
a big business. Almost every branch of
trade is represented. Of the nine banks
burned the vaults of eight have been
opened and the contents found in good
condition, and all the banks are doing
business. Liberal contributions from the
sufferers are coming in and little suffering
is likely to ensue.

A \$12,000 BLAZE.

Iron Works and Machine Shops Burned

Out at Chicago.

Chicago, Aug. 7.—The four-story brick
building at 37 to 41 East Indiana street
was gutted by fire about 6 o'clock this
morning. The building was occupied by
the Globe Iron company, having the base-
ment and two lower floors, the Chicago
Car Seal company, and the machine shop
of C. W. Cray & Son. The fire origi-
nated in the third floor, occupied by the
car seal company, and the flames quickly
spread through the building, reaching the
roof in about five minutes. The entire part
of the damage, however, was done on the
lower floors.

The Globe Iron company's loss is about
\$5,000. Cray & Son, on the fourth
floor, suffer a loss of about \$3,000, mainly
damage to their machinery. The car
seal company's loss is about \$1,000. All
the parties were well insured. The build-
ing which was damaged to the extent of
about \$3,000, was insured in several com-
panies for \$12,000. The origin of the fire
is a mystery.

SUGAR WORKS BURNED.

The Largest Plant of the Kind in the West

Went up in Smoke.

TOPEKA, Kan., Aug. 7.—The Topeka
sugar works, the largest plant of the kind
in the West, which were only completed
last year at an expenditure of \$350,000,
were burned to the ground last night.

The works are situated six miles west
of the city on the Rock Island railroad, hence
no water was available. The works had
just been started up to test the machinery
preparatory to entering upon its full busi-
ness, and it is supposed that the fire origi-
nated from friction. The insurance on the
building and machinery is \$100,000.

The company had contracted for 1,800
acres of sugar cane at \$2.50 per ton, which
was about ready for delivery, and which
will increase the loss to \$600,000.

LIGHTNING'S FATAL WORK.

Two Young Society People in North Caro-

lina Are Instantly Killed.

ASHEVILLE, N. C., Aug. 7.—Intelli-
gence has reached here of a fatal accident
by lightning Sunday night at Catawba, on
the Western North Carolina road.

James Trolinger, aged 21, and Miss Ad-
dell Reid, aged 18, were waiting in the
latter's house for the thunder storm to
pass when lightning struck the house,
and, running down the chimney, killed
both of them, besides badly scorching
the others in the room.

The shoes were torn entirely off Miss
Reid's feet, and her clothing was in flames.
Both Trolinger and Miss Reid were
prominent and popular in social circles of
the community.

KANSAS CITY WASHED.

A Miniature Tornado Succeeded by a

Heavy Deluge of Rain.

KANSAS CITY, Mo., July 7.—At 10
o'clock this morning a small tornado
passed over this city from northwest to
southeast, tearing down chimneys and
out-buildings, but doing little damage to
the city. As it went on it appeared to
gather force and increase in size. It was
followed by a heavy electrical storm of
rain, which fell in torrents for about half
an hour, deluging the streets and stopping
traffic.

Fatal Train Wreck in Nebraska.

OMAHA, Neb., Aug. 7.—A Union Pacific
freight train, drawn by two engines, was
wrecked at West Omaha, Neb., early this
morning by the giving away of a heavy culvert
which had been weakened by a heavy rain-
storm. Five men were caught in the de-
bris. Engineer Mitchell was killed,
Switchman Connelley injured, and
Engineer Morgan crippled for life.

Dug Up Fifteen Skeletons.

PEORIA, Ill., Aug. 7.—While at work
on the highway about eight miles south-
west of here on what is known as the Lan-
caster road, William Green, J. W.
Richmond, two farmers, unearthed fifteen
skeletons. They were all together as if
from interment and were remarkably
well preserved. One skeleton was large
and the skull well developed. The others
were rather inferior and four of them
were children. They were found in a
gravel bank on Nessalus hill. There
seems to be no explanation as to how they
came there.
